What attracted you to apply to Salesforce (250 -500 words) *

Salesforce's leadership in innovation and dedication to social responsibility are what drew me in. The company's cutting-edge technologies, such as Salesforce Einstein, complement my love of using cutting-edge instruments to get significant results. Salesforce's inclusive culture, emphasis on employee development, and charitable endeavors also align with my goals and values. The chance to work for a business that succeeds at both advancing technology and having a positive social impact excites me.

What attracted you to apply to this role (250-500 words) *

My talents and interests are a fantastic fit for this software engineer position, so I'm delighted to apply. My proficiency with Node.js and Express.js for backend programming, along with my mastery of React for frontend development, puts me in a good position to make a valuable contribution to your team. The chance to use these technologies in a dynamic setting and use my expertise to create software solutions that are scalable and significant appeals to me in particular. My enthusiasm for coding and my desire to take on new challenges make me excited about the opportunity to develop and add value to your creative ideas.

Any current or prior experience? (Company Name)

No Response

Do you intend to enroll in a postgraduate degree following completion of this internship term? *

No
