PROJECTS

COURSE EXEMPTION AUTOMATION

Collaborating with a team to develop an automated system for the course exemption process at our college. This project replaces the traditional manual approach with a streamlined, efficient platform that enhances application processing, tracking, and approval workflows.

Technologies Used:

- React Js (Frontend)
- Node.js (Backend)
- Express.js (Backend)
- MySQL (Database)

KeyContributions:

- Developed 50% of the application with a focus on responsive content and database creation
- Working on both frontend and backend logics to have a proper functionality.

Technical Skills

- Programming Languages:
C, Java (Basics)
- Frontend Technologies:
HTML, CSS, JavaScript,
React.js, Material UI
- Backend Technologies:
Node.js, Express.js
- Database Management:
MySQL

Area of Interest

- Core Web Development
- UI/UX Design
- Continuos Learning of
Advanced Technology

Software Skills

- VS Code
- Git / Git Hub
